**INVISIVENT™ TRIPLE 3-1/3"**  
SUPER VENTILATED SOFFIT

**Proper Ventilation  
is Vital**

Protection against damage to the roofing materials and structure increase comfort inside the home and energy savings.

Ridge Vents (exhaust)

InvisiVent offers at least 50% more ventilation than most standard vinyl soffit, providing more than 10 inches of net-free intake area.

This means that not only will InvisiVent provide a balanced ventilation system, but will do so with an overhang as short as 10 inches.

InvisiVent

Standard vented soffit

Hidden vents provide a smooth, flat non-perforated surface versus most vented soffits with unsightly perforations.
